

14 March 1978

MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM

SUBJECT

25X1

25X1A

1. Attached is a background paper for the DDCI/NIO meeting at 1100 tomorrow which I will circulate this afternoon. I've listed subjects that are not now well covered in the briefing (e.g. nuclear issues) or that seem to be subject to differing perceptions (e.g. prospects for stability). Hopefully this will allow you to probe our reasoning on such subjects. The meeting will be loosely structured so that you can pursue whatever seems most relevant as the discussion progresses.

2. Also attached is a second draft of the briefing paper for your review from the NIO/LA. It's still pretty rough, but it seems better to get it to you than to redraft it again.

3. I have asked for 10 minutes to get guidance on how you wish to proceed. If you are happy with what I've just laid out, I need not waste your time.
